# DINTEK Premium RJ45 Crimp Tool

This modular crimping tool makes terminating communications cabling plugs easy. As an all-in-one tool, it lets you easily terminate RJ45, RJ12 and RJ11 plugs with paired-conductor cables for voice and data applications. Trim and strip cords with precision in one motion, for consistent, high quality connections.

The tool includes two crimping slots suitable for 6 and 8 position modular plugs. It features a heat-treated carbon steel frame with black oxide finish for superior durability, a safety blade guard, and comfort grip handles that helps reduce fatigue.

## Features

- Works with solid and stranded style cables
- Heat-treated steel frame
- Black oxide finish for superior durability
- High quality ratchet action
- Safety blade guard
- Comfort grip handles that help reduce fatigue

## Applications

- Terminating stranded and solid wire cables
- Terminating RJ11, RJ12 Telecoms style plugs
