

Release Note for VigorSwitch G2542x

Firmware Version:	2.10.2
Release Type:	Regular – Upgrade recommended when convenient, as it includes general improvements and optimizations
Applied Models:	VigorSwitch G2542x

VigorSwitch G2542x, the L2+ Managed Switch (48 Gigabit Ports and 6 SFP+ Ports), is a standard switch that meets both IEEE 802.3u/ab Fast Ethernet and Gigabit Ethernet specifications.

New Features

- Support up to four devices for Physical Stacking. When operating in stacking mode, the following features can now be configured on Link Aggregation Group (LAG) ports through the stacking management interface:
 - Static MAC
 - VLAN
 - GVRP
 - Multicast
 - Spanning Tree Protocol (STP)
 - Quality of Service (QoS)
 - ONVIF Surveillance
 - IP Source Guard
 - Port Security
 - Dynamic ARP Inspection
 - DHCP Snooping
 - IP Conflict Prevention
 - Loop Protection
 - Port Recovery

Improvement

- None.

Note

- Due to supporting Physical Stacking, the firmware version has changed to start from V2.10.2.
