

## Release Note for VigorSwitch G2542x

Firmware Version:	3.10.5
Release Type:	Regular – Upgrade recommended when convenient, as it includes general improvements and optimizations
Applied Models:	VigorSwitch G2542x

VigorSwitch G2542x, the L2+ Managed Switch (48 Gigabit Ports and 6 SFP+ Ports), is a standard switch that meets both IEEE 802.3u/ab Fast Ethernet and Gigabit Ethernet specifications.

### New Features

- Support PSE RTL8238C chip.

### Improvement

- None.

### Note

- This version (V3.10.4) follows the previous v2.10.2 release. The version numbering has been adjusted to the 3.x.x branch to better reflect the product's advanced feature set and software evolution.
- Starting from this version, STP (Spanning Tree Protocol) is enabled by default. This may result in a slightly longer link-up time for ports.
